 23. Date (m/d/y): **05-13-11**

User/Installer Responsibilities

It is important to understand that the existence of this Document alone does not automatically constitute authority to install the part/component/assembly.
 Where the user/installer work in accordance with the national regulations of an Airworthiness Authority different than the Airworthiness Authority of the country specified in block 1 it is essential that the user/installer ensures that his/her Airworthiness Authority accepts part/component/assemblies from the Airworthiness Authority of the country specified in block 1.
 Statements in block 14 and 19 do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

FAA Form B130-3 (5-01) *Installer must cross-check eligibility with applicable technical data. NSN: 0057-00-012-9005
